DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Harvey Jacobson on February 9, 2004.

The application has been amended as follows:

In claim 1, line 12, **delete** —said functionalization being— and **replace** with wherein functionalization of the solid body surface is

Drawings

New corrected drawings are required in this application because they contain minor informalities. Formal drawings are required. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

Claims **1-30** and **71-100** are allowed.

The following is an examiner's statement of reasons for allowance: Claim 1, 71, 72, 73 are allowable because the prior art does not teach or fairly suggest a process for manipulation of small quantities of matter on a solid body surface that comprises an acoustic surface wave generator, that generates a surface wave on a solid body surface comprising at least one hydrophobic region and a hydrophilic region or silanization of the surface to create specific wetting properties. Claim 75 would be allowable because the prior art does not disclose non-constant distances between the interdigital fingers for producing different frequencies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

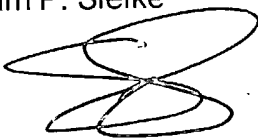

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel P Siefke whose telephone number is 571-272-1262. The examiner can normally be reached on M-F 7:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill A. Warden can be reached on 703-308-4037. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
